2" x 23.25" x 20.5" (H x W x D)

7200W 208-240V 24" wide 4-zone built-in induction cooktop with a jet black glass surface, touch controls, and power boost

- Highlights:**
- Advanced safety features include automatic shutoff, overflow protection, child lock, and residual heat indicator light
 - 7200W of cooking power with boost functions for all elements
 - Two large 8 1/4" elements ideal for fast heating of large cookware

Product Features:

Induction heating	Electromagnetic heating technology where heat is generated inside your cookware, ensuring a more efficient process with less energy waste, faster heating, and a safer cooking experience
7200W operation	Powerful elements with fast heating to meet most stovetop cooking needs
Jet black glass surface	Elegant style on a smooth, jet black glass surface for a contemporary look that is easier to clean
2 large elements	8 1/4" elements in the front left and rear right operate at 2000W (with a 3000W capacity at the boost setting) for fast, powerful heating
2 standard elements	6 1/4" front right and rear left elements operate at 1500W (or 2000W using boost) to cover most general cooking needs
Smart burner layout	Largest elements are located diagonally, with maximum spacing to allow large cooking vessels in use simultaneously
Boost function	All cooking zones include a "boost" function that lets them operate at a higher setting for up to 5 minutes, ideal for reducing cook time when boiling water
Timer function	Allows you to program either burner to heat at a specified level for up to 99 minutes and either turn off when finished or display a countdown with an audible alert when the time is up

If the cooktop on/off switch is touched but no power level is selected within one minute, the cooktop automatically turns off
