## For over 50 years, Summit has been the industry's answer to unique spaces

From studio apartments to tiny homes, smaller kitchens can pose strict limitations on appliance size. That's why Summit offers an extensive selection of refrigeration, cooking, and ventilation options in slim-fitting footprints.

When it comes to range hoods, our collection includes a variety of options starting at just 18" wide. Whether you're looking for modern luxury with European design or simple value with American made builder hoods, Summit has an answer.

# 24" 30" 36" Stainless Steel Wall-Mounted & Island Hoods Made In Europe

Made in Europe, our wall-mounted and island hoods feature complete stainless steel construction and high CFM output for optimum performance with minimal noise.

- Brushed stainless steel in a variety of styles to suit every kitchen
- High CFM output ensures thorough ventilation
- 3-speed fan with touch or slide controls for easy use
- Timer function for added convenience
- Adjustable chimney height for versatile installation
- Large filtration area with dishwasher-safe aluminum cassette filters
- Two halogen lights included

 **ADA compliant option** available by special order • Unit can be redesigned to work off light switch for easier accessibility

## Series Specifications

Max Air Flow: 500-650 CFM
